## ENDEAVOUR**EMPOWER**ENRICH

Endeavour Africa Group – An organization borne out of the firm believe that true enduring success is always the result of collaborative effort. Established in the year 2002, Endeavour Africa Group is one of the leading solutions providers in the field of Information Technology, Business Solutions & Security Solutions. Our vision is to be Africa's leading provider of cutting-edge IT solutions delivered with world-class service providing utmost satisfaction for our valued customers. Our solutions are critical for our customers and that's why we place great importance in providing reliable, state-of-the-art products. Our team of professionals commands an exceptional set of talents, motivation, and a determination to excel to provide everything they commit to. The end result is our corporate clients' absolute confidence in our professionalism and capabilities, which is demonstrated by the sustained and positive development of our collaboration with them clearly identifying us a customer-centric company. Imaginative innovation is the key to our continued success which always keep us a step above our competitors inspiring them to do better.

## DREAM**DARE**DELIVER

Our vision is to be Africa's leading provider of cutting-edge IT solutions delivered with world-class service; providing utmost satisfaction for our valued customers. Our solutions are critical for our customers and that's why we place great importance in providing reliable, state-of-the-art products.

Our entire system has been designed and constructed from the ground up by our own team of experienced software developers with years of experience. We challenge ourselves to deliver the latest technology in the fastest time possible that fits your requirement. Our solutions are scalable to suit different kinds of operational requirements.

# CARECOMMITCOLLABORATE

The rapid success we have achieved this far, first-rate references from our existing satisfied clients provides us with the necessary know-how to offer companies assistance in the selection, installation, setup and training from the vast range of solutions available. As we continue to grow and evolve, we cherish the values that in turn serve as the foundations of our corporate systems and practices.

Our team of professionals command an exceptional set of talents, motivation, and a determination to excel to provide everything they commit to. The end result is our corporate clients' absolute confidence in our professionalism and capabilities, which is demonstrated by the sustained and positive development of our collaboration with them clearly identifying us a customer-centric company.

# IMAGINEINNOVATEINSPIRE

Business needs today are as extensive as the applications produced to manage them. As a result, a simple request can become overly complex or grow wildly out of control. We are able to provide our expertise with a wide variety of technologies in a cost efficient and timely manner. Our solutions are innovatively designed and built using the latest development tools. Our solutions are easy to learn, easy to use, and economical to implement and support.

Imaginative innovation is the key to our continued success which always keep us a step above our competitors inspiring them to do better.

# SECURITY SOLUTIONS

Our Security Solutions Division is one of the largest, truly independent security system provider in East Africa. We design, install and maintain fully integrated electronic security solutions, including CCTV cameras, intruder alarms, access control and barriers. Our systems incorporate the latest digital technology including biometrics, network integration and remote monitoring. Our job is to select the best techniques to solve your problems and help you take advantage of your opportunities. We purposely limit our product range to products with a proven track record for reliability, while training our engineers to high level for both installation and maintenance.
